PRODUCT SPECIFICATIONS

General Features

- Supports up to four industry standard keystone type data jack inserts; with two jack locations recessed into each end of the monument.
- This assembly is made entirely of stainless steel to resist corrosion and blend in with the commercial kitchen environments.
- The inner jack housing is completely covered by a separate outer heat shield section which acts as a radiant barrier to protect the data jacks and the ends of the patch cables.
- The assembly is sized to tightly fit over a standard single gang electrical outlet opening.
- With an overall height of only two inches including the heat shield the monument delivers high functionality in a very low profile design.
- The cover plate and heat shield are attached together with captive screws that cannot fall out.
- The assembly can be mounted underneath the countertop behind the monitor or on top of the countertop directly behind the monitor.
- Cable tie points are included on all four corners of the heat shield.
