## PRACTICAL QUALITY SYSTEMS

*Fast Custom Manufacturing - Nationwide Installation Services*

PN 80100-MICROS 6" Riser

PN 80100-MICROS 6" Riser

### General Features

- Both of these Countertop mounts support all Oracle MICROS terminals with the MICROS Quick Connect tabs and slots mounting standard for Point of Sale / POS, Kitchen Display Systems / KDS in commercial kitchens, retail, restaurants, offices, industry, shops, medical, maritime, schools, laboratory and many other applications.
- An innovative set of joint assemblies allow two axis of position adjustment when attached to a Countertop or other horizontal surface.
- Beyond having flexible articulation; this mount has the key feature of being easily LOCKED in any desired screen position; this ability is VERY important when using touch screen equipment as it PREVENTS the screen from moving away from the user each time a touch is input.
- This assembly supports up to 15 lbs., is made of steel and finished with a durable, black, semi-gloss, powder coat that resists fingerprints.
- Visit [kitchendisplaysystems.com](http://kitchendisplaysystems.com) for a free, easy to understand tutorial that covers all aspects of Kitchen Display Systems knowledge!
- For more information on the individual components included in this package please refer to the assembly sketches in this document and the downloadable product information sheets available on our website for each of the product pages for each part number.

### MICROS compatible Pan and Tilt Head on a Riser Cap

- Tightening the 2 four-point knobs applies variable clutching resistance to allow adjustment of the up and down tilt position of the screen. Tighten either of the two 10-32 Phillips head screws adjacent to the four-point knobs to permanently secure the tilt position of the screen.
- Tightening the three - point knob on the side of the Riser Cap applies variable resistance to allow adjustment of the side-to-side pan position of the screen. The stop of the Riser Cap interacts with the Riser Cap Stop on the side of the riser to prevent the arm from making a full revolution around the riser. Refer to the Riser section for instructions on setting the position of the Riser Cap Stop.

#### Single Countertop Mounting Plate with a Riser, Riser Cap and a MICROS compatible Pan and Tilt Head

- The Riser elevates the MICROS compatible pan and Tilt head above the mounting surface.
- Before attaching the mounting plate to the countertop with appropriate fasteners; evaluate the side-to-side Pan range of motion of the pan and tilt head that is attached to the Riser Cap.
- The Riser Cap Stop prevents the Riser cap and pan and tilt head from rotating a full 360 degrees around the Riser. It may be advantageous to relocate the stop position to optimize the side-to-side range of motion of the pan and tilt head for your application.
- To reset the position of the Riser Cap Stop; Turn the mount so that you can access the bottom of the mounting plate, slightly loosen the 5/16-18 bolt with a ½" wrench, slightly loosen the 10-32 Phillips head riser lock screw on the underside of the mounting plate; carefully rotate the riser to locate the stop at the new desired position; then retighten the bolt and screw.

PN 80100-MICROS 6" Riser

PN 80101-MICROS 3" Riser

**Below is a partial list of Oracle MICROS compatible Terminals that use the MICROS Quick Connect tabs and slots mounting standard:**

- Oracle MICROS Workstation 625X.
- Oracle MICROS Workstation 655X.
- Oracle MICROS Workstation 6 POS Terminal.
- Oracle MICROS Workstation 610.
- Oracle MICROS Workstation 620.
- Oracle MICROS Workstation 625.
- Oracle MICROS Workstation 650.
- Oracle MICROS Workstation 625.
- Oracle MICROS Workstation 655.
- Oracle MICROS Compact Workstation 310.
- Oracle MICROS Express Station 4 Series.
- Oracle MICROS Express Station 400.
- Oracle MICROS Express Station 410.

Install the Oracle MICROS External Power Supply PN 400351-038-PT or other model on the power supply holder and secure with the hook and loop straps.

Once the four taps on the Micros compatible adapter plate are properly inserted into the four slots on the back of the terminal; tighten the red headed lock screw to secure the WS6 or other terminal to the adaptor plate.

PN 80101-MICROS 3" Riser

### Installation Tips for Screen Mounting Systems

- 1. 1 Installation of this assembly must be performed by qualified persons.
- 1.2 Use fasteners that are appropriate for the materials and structure of the mounting surface.

### Tips for locating KDS or POS Screen Mounting Systems

- 1.1 Care must be taken when locating KDS or POS Screens so that the display can be easily seen by the users (and in some cases touched); and also so that the screen does NOT block access to the pass through window or items such as ingredients, plates, microwaves, etc. that are located on the adjacent shelves.
- 1.2 As a general rule of thumb KDS and POS screens should be located to place the center of the display at, or just above, eye level.
- 1.3 Most KDS screens are supported by mounting systems that are attached directly to the edge of existing kitchen shelves above a production work station or expo area. POS Screens are most often attached to counter tops, Under counter, shelf edges or walls.
- 1.4 Conduct a careful survey of each POS station, Kitchen work station or expo area. Stand where the users will be standing at their work stations and consider all possible screen locations. Again ; the screens should be located where they are readily accessible; but also where they do not limit access to other important items in the work area.

**We believe in ethical SEO relevancy; the following section was included to assist the all-knowing algorithms in locating this page; however, some humans like it too.**

- MICROS Countertop mount, MICROS Countertop mounting bracket, MICROS Countertop mount bracket, MICROS Terminal Countertop mount, MICROS Terminal Countertop mounting bracket, MICROS Terminal Countertop mount bracket.
- MICROS Point of Sale terminal Countertop mount, MICROS KDS Countertop mount, MICROS KDS Countertop mounting bracket, MICROS KDS Countertop mount bracket, MICROS Kitchen Display System Countertop mount.
